SZG-Professional glass Manufacturer & Factory- Building glass- Gold Reflective Laminated Tempered Glass 8mm+8mm

17.52mm gold reflective toughened laminated glass is also called 17.52mm gold coated laminated glass, 8mm+8mm gold reflective tempered sandwich glass. It's a kind of safety and energy saving glass which is made of two pieces of 8mm tempered **gold reflective glass** or one pieces of 8mm gold reflective tempered glass and another piece of **8mm clear tempered glass**, inserted by 1.52mm clear PVB and glued tightly after heating and high pressure. When it's broken, the debris will still stick to the PVB film and won't fall off.

Specifications:

Glass type: 17.52mm gold reflective toughened laminated glass
Other name: 17.52mm golden laminated glass, 17.52mm gold coated laminated glass, 17.52mm toughened laminated glass, 17.52 gold laminated safety glass, 8mm+8mm golden reflective glass, 17.52mm gold reflective sandwich glass, etc.
Composition: 8mm glass+1.52mm PVB +8mm glass, or others.
Glass colors: clear glass, reflective glass, tinted glass, acid etched glass, printed glass, etc.
Thickness of PVB: 0.38mm, 0.76mm, 1.14mm, 1.52mm, 1.9mm, etc.
PVB color: clear, white, milky white,any pantone colors
Max size: 3300x12000mm
Package: Packed with strong exportation wooden crates

Features:

1. Energy saving: 17.52mm coated laminated glass is a kind of energy-saving glass, because it can reduce the heat transfer, sunlight and energy control.
2. Security: 17.52mm golden reflective tempered laminated glass is a kind of safety glass, because when it's broken, the glass panel will still attach to the PVB film and won't fall down, so that it can reduce injury to people.
3. UV rays: 17.52mm gold coating sandwich glass can reduce most of the transmission of harmful ultraviolet radiation.
4. Sound proof function: The PVB film can reduce the transmission of noise.
5. Strength: 17.52mm gold coated laminated toughened glass is made by toughened glass, it's 5 times harder than general laminated glass.
6. Fire proof: 17.52mm tempered laminated glass can protect buildings and proof the fire in a certain extent when fire occur.

Application:

1. Can be used as table tops,
2. Curtain wall, glass facade, glass partition
3. Can be used as doors and windows
4. Glass balcony, railings, glass balustrade, etc.

Quality Certificates:

17.52mm gold coated laminated glass is produced strictly under ISO9001 Quality System and have passed following domestic and international quality standards:

1. CCC(Chinese Safety Glass Compulsory Certification).
2. China laminated glass standard GB9962.
3. European safety glass standard EN12543, EN12510.
