

SZG 11.52mm obscure laminated glass- best building glass manufacturers and factory in China

11.52mm acid etched laminated glass is a kind of laminated glass, which is made of one layer of [5mm translucent glass](#) and one layer of 5mm clear tempered glass sandwich together. The middle layer is PVB film, after heating and high-pressure special process, the two layers of glass adhere together. With the process of lamination, the glass is super strong and high protective against breakage. Laminated glass is a kind of safety glass.

Specification:

Glass thickness :11.52mm opaque laminated glass

Other glass thickness: 9.52mm frosted laminated glass, 13.52mm frosted laminated glass, 17.52mm frosted laminated glass, 21.52mm frosted laminated glass, 25.52mm frosted laminated glass, 31.52mm frosted laminated glass, 39.52mm frosted laminated glass etc

Min size: 300x300mm

Max size: 3300x13000mm

Glass thickness: 4mm+4mm laminated glass,5mm+5mm laminated glass,6mm+6mm laminated glass,8mm+8mm laminated glass,10mm+10mm laminated glass, 12mm+12mm laminated glass,15mm+15mm laminated glass, 19mm+19mm laminated glass etc

Glass color: clear laminated glass,extra clear laminated glass,dark green laminated glass,F green laminated glass,bronze laminated glass,ford blue laminated glass,dark blue laminated glass,Euro gray laminated glass,dark gray laminated glass,frosted laminated glass,silk screen laminated glass etc.

PVB thickness: 0.38mm laminated glass,0.76mm laminated glass,1.14mm laminated glass,1.52mm laminated glass,1.9mm laminated glass

Laminated privacy glass features:

- 1.Safety glass features: Due to PVB have good adhesive, opac laminated glass breakage will bond by pvb film and will not fall down.
2. Privacy features: Opaque laminated glass can protect privacy and use widely if there is privacy considerations.
- 3.Sound resistance function: The density of film are different with glass so the film can stop sound transmission.
- 4.UV rays resistance: Translucent laminated glass reduces the penetration of UV rays and protect indoor objects from UV rays radiation.
- 5.Fire resistance function: Obscure laminated glass can protect buildings against fire, have the function of anti fire at some degree.

Applications:

As frosted laminated glass have good function of protection of privacy, 11.52mm frosted laminated glass widely use in following areas:

1. Glass railings, glass balustrade, glass fence, pool fence etc.
2. Glass partition, glass partition wall, etc
3. Glass door, show door, shower screen etc

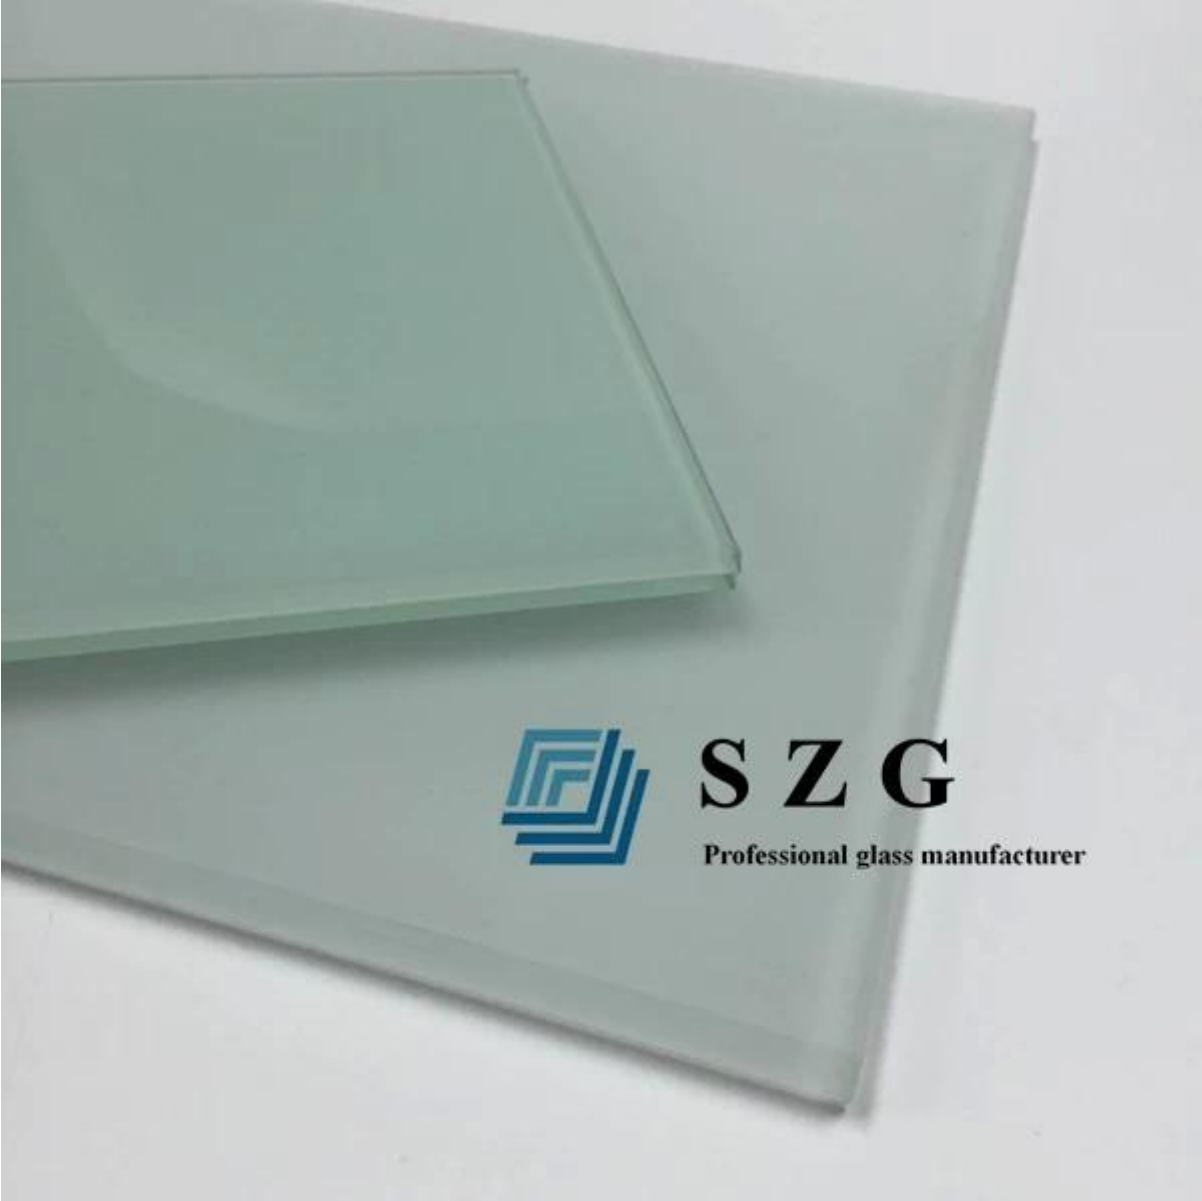

Quality Certificates:

11.52mm frosted glass are produced strictly under ISO9001 Quality System and have passed following domestic and international quality standards:

1. 11.52mm frosted laminated glass meet CCC(Chinese Safety Glass Compulsory Certification)
2. 11.52mm frosted laminated glass meet China laminated glass standard GB9962.
3. 11.52mm frosted laminated glass meet meet European safety glass standard EN12543, E12510.
