

## **5mm silk screen tempered glass touch wall switch**

As a professional building glass manufacturer in China, Shenzhen Sun Global Glass Co., Limited can produce bespoke switch glass panels, they are normally applied to screen panel of LED Touch Switch. They are good decoration aesthetic materials. Except this, we have strong ability to manufacture all kinds of OEM optical coating glass, display glass panel, TV mirror glass, CNC processing high precision glass panels.

In this section, 6mm Tempered glass switch panels are produced by 5mm ultra clear tempered glass, **5mm clear tempered glass**, 5mm silkscreen glass, or 5mm lacquered glass. Each glass panel have are in perfect condition, when you have them you can use them directly, no necessary any further processing.

### **Specification:**

1. Glass Substrate: Clear Tempered Glass, Ultra Clear Tempered Glass, silk screen glass, Frosted Glass and Lacquered glass and so on.
2. Glass thickness: 5mm
3. Glass dimension: bespoke size
4. Mini Order quantity: 10000pcs
5. Production Time: within 5 days
6. Packing: Brand new, seaworthy wooden cases with foam production inside.

### **Advantages:**

1. Sophisticated R&D team are good at reading customized drawings
2. Have the most advanced production equipment can realize precious CNC glass cutting to meet different projects requirement.
3. Our processing capacity includes: drilling holes, cutting notches, polished edges, beveled edges, etc.

### **Features:**

1. Good quality control, each switch glass panel is accord with CE standard;
2. High hardness, can be a safety decoration materials
3. Lovely colorful paints are durable, not easily to be scratched
4. Provide a good sense of aesthetic for interior decoration

## Applications:

Products are widely use in electronic, electrical appliance, digital, sporting products, safety monitoring facilities, fire protection facilities, chemical equipment, measuring instruments, medical instruments, lighting, lamp, solar energy, petroleum, chemical industry, shipbuilding, aviation, national defense industry, high temperature furnace industry etc. Products cover domestic and abroad markets!
