

SGG 4mm Dark Green Reflective Glass - China Energy Saving Glass Manufacturers and Factory

4mm dark green reflective glass is also called 4mm deep green coated glass. It is a kind of glass that applying the coating on the [4mm dark green tinted glass](#) surface. It has the appropriate transmittance for visible light and could blocks the ultraviolet and infrared light. It meets the energy requirements more efficiently, so it is a kind of energy saving glass.

Reflective glass type:

1. Online reflective glass is also called Hard coating reflective glass. The coating process is proceeded when the tinted glass in producing and the tinted glass still hot in the furnace.
2. Offline reflective glass is also called Soft coating reflective glass. The coating process is proceeded after the tinted glass finish and the tinted glass could't be placed for a long time. Compared with Online reflective glass, the Offline reflective glass is easy to oxidized, so always deep processed as inner layer of laminated reflective glass or insulated reflective glass etc, use very common as building facade or curtain wall, as it has good function of solar energy saving.

4mm deep green reflective glass specifications:

1. Glass type: Dark green coated glass
2. Color: Bronze reflective glass, Euro Grey reflective glass, Dark Grey reflective glass, F-Green reflective glass, Dark Green reflective glass, Ford Blue reflective glass, Dark Blue reflective glass, clear reflective glass, golden reflective glass, pink reflective glass, etc.
3. Thickness: 4mm reflective glass, 5mm reflective glass, 5.5mm reflective glass, 6mm reflective glass, 8mm reflective glass, etc
4. Standard Size: 2140*3300mm reflective glass, 2140*1650mm reflective glass, etc
5. Glass packing: Exportation plywood crates
6. Delivery time: 3-7 days after deposit
7. Application: reflective glass windows, reflective glass balcony, reflective glass facade, reflective glass curtain wall, etc.

Features:

1. Solar control feature: The dark green reflective glass could efficiently blocks the solar radiant energy come into the room and can reduce the air conditioning consumption. It is a kind of energy saving glass, used very common in modern buildings, such as glass facade, glass curtain wall, glass window etc.
2. Decorative effect: The Dark Green Reflective glass enrich the colors of buildings and reflect different appearance with the sunlight.
3. Deep process: SGG excellent quality dark green coated glass is suitable for Tempered Reflective glass, laminated Reflective glass, insulated Reflective glass process, with best quality and good price, has a wide usage of reflective glass curtain wall, reflective glass facade, reflective glass window etc.
