

9,52 mm + 12 a + 10 mm verre isolé réfléchissant Low E , panneau de verre réfléchissant 31,52 mm Low E , verre réfléchissant low E à double vitrage.

Le verre isolé Low-E est un type de verre à économie d'énergie, 9.52mm + 12A + 10mm Le verre isolé à double panneau low-E est recouvert d'un composé métallique coloré et transparent sur la surface du verre. être appelé nouveau matériau de construction écologique, respectueux de l'environnement. C'est le premier bon choix à utiliser dans le verre de construction.

Verre réfléchissant low e à revêtement d'argent double et verre réfléchissant low e à revêtement d'argent unique.

Le verre réfléchissant low e à revêtement d'argent simple est revêtu d'une couche d'argent et le verre réfléchissant d'low e à double argent est revêtu de deux revêtements d'argent. La valeur U du verre à revêtement double low E est inférieure.

Le verre réfléchissant low e à double couche d'argent peut empêcher plus d'énergie solaire que le verre réfléchissant low e à couche d'argent unique. Ainsi, le double verre réfléchissant low e est plus largement utilisé comme fenêtre, murs-rideaux, portes, etc. pour économiser de l'énergie.

Caractéristiques:

1. Haute transmittance de la lumière visible: pour le verre de même épaisseur, la transmittance de la lumière visible du double verre réfléchissant low e est meilleure.
- Réflectance de la lumière visible 2.High: la réflectance est plus élevée, plus le verre réfléchit.
3. Valeur U: La valeur U inférieure, les performances d'isolation thermique seront meilleures.
4. Valeur CS: La valeur SC la plus basse, le moins de chaleur solaire transférée à l'intérieur.

Spécification:

Nom du verre: Verre isolé à double panneau réfléchissant Low e

Couleur: gris

Épaisseur totale: 9,52 mm + entretoise de 12 mm + verre réfléchissant isolé de 10 mm

Caractéristiques: économie d'énergie: protection solaire / conservation de la chaleur / isolation phonique

Fonction: Gardez la glacière en été & plus chaud en hiver.

Insonorisation: bons effets pour l'isolation acoustique.

Épaisseur de panneau unique: 4-12mm

Norme de qualité:, ISO, CCC, CE, BS6206, EN12510, SGCC, etc.

Verification of Conformity
to EN 14449-2:2015

Glass in building - Laminated glass and laminated safety glass - Evaluation of conformity / Product standard EN 14449-2:2015

The product in the certificate: Laminated Safety Glass, manufactured by SHENZHEN SUN GLOBAL GLASS CO., LTD. was submitted to the manufacturer for Performance Testing according to the administrative Computer approved. The results showed conformity with the applicable requirements. The test results and the content of this certificate of Conformity, including issues in the tested samples. The results remain valid as long as the certificate data only in the above mentioned standard and no further applications.

Company Name: SHENZHEN SUN GLOBAL GLASS CO., LTD.
Address: 3F, Qiangyuan Building, Shuangyuan Road, Luoyang, Henan, Zhengzhou, China

Manufacturer Name: SHENZHEN SUN GLOBAL GLASS CO., LTD.
Address: 3F, Qiangyuan Building, Shuangyuan Road, Luoyang, Henan, Zhengzhou, China

Product: Laminated Safety Glass

EC Declaration of Conformity

The information reported shows that the product complies with the essential requirements in the above listed standards. The applicant is authorized to use this certificate in connection with the EC Declaration of CPC conformity according to the Directive.
