

SZG- Glass Manufacturer-Building Glass- 25.52mm low Iron tempered laminated glass fins

25.52mm ultra clear tempered laminated glass fins is made of 25.52mm low iron tempered laminated glass. It's a kind of safety glass which is combined by two piece of 12mm ultra clear tempered glass bond together by the 1.52PVB/SGP film. When it's broken, the debris still stick to the film and won't fall off. Nowadays, glass fin is popularly used for facade, hotel lobby, shopfront, modern business buildings, etc..

Specifications:

Glass type: 25.52mm extra clear tempered laminated glass fins.

Composition: 12mm low iron toughened glass+1.52 PVB/SGP+12mm low iron toughened glass

Shape: Flat or curved shape

Size: Customized size, jumbo sizes are available.

Available PVB colors: Customized colors.

Strict quality control:

We conduct strict quality inspection after every process and before delivery.

Advantages of 12+12mm ultra clear tempered laminated glass fins:

- 1.Security: When the laminated glass panel is broken, the debris will still stick to the film and won't fall off.
- 2.High Strength: 25.52mm low iron tempered laminated glass is 4-5 times harder than 25.52mm non-tempered laminated glass.
- 3.The 12mm+1.52 interlayer+12mm ultra clear tempered laminated glass can reduce the transmission of ultraviolet.
- 4.Good effects of decoration.
- 5.High transparency, it can make the room full of light, and we can enjoy good views of outdoors when we look through it.
- 6.Jumbo sizes are available.
