

SGG 4mm Nashiji Clear Patterned Glass supplier and manufacturer with high quality

4mm Nashiji Clear Patterned Glass is also named 4mm Nashiji clear figured glass, or 4mm Nashiji clear rolled glass. It can be made of 4mm Nashiji patterned tempered glass or 4mm Nashiji patterned laminated glass to meet with security requirements of some projects. It is one of the popular kinds of patterned glass. It's engraved a decorative texture by steel mold, on one side of the glass surface. By this process, 4mm Nashiji clear patterned glass permits light transmits diffusely and prevents clear vision through at the same time. With different patterns applied, the glass has different degrees of translucency and privacy. 4mm Nashiji clear patterned glass offers a wide range of designs and conceptions for interior and exterior decoration projects.

Features:

1. There are many colors, for example, clear, bronze and so on.
2. Decoration- various kinds of patterns or textures are available , including popular patterns for different countries.
