

Swimming Pool Retractable Awning Cover

Pergole awning is an ergonomic and state-of-the-art shading product, which can be opened and closed fully automatically and manually, and provides the opportunity to use the place in summer and winter conditions. Pergole is a perfect system that offers four seasons ideal drawings. The pergola system provides you with natural light and ventilation. Its special design prevents rain and snow water from entering inside. It certainly does not allow any leakage or pooling. Pergole Awning Systems offer you different experiences with its high-strength aluminum structure and many differentiating features that are compatible with all weather conditions.

Features

With Remote Control for easy use all round

This simple but highly functional design is a great way to provide all year round weather protection from the elements.

Customized size and color

Available in a number of sizes, the roof has a fully retractable canopy cover, which at the touch of a button can be extended to provide shelter, or retracted to take advantage of the good weather. You can also choose your frame colour - whether it be white or anthracite.

Suitable for rainy days

The high tension PVC fabric that the canopy is made from offers a flat surface that guarantees the discharge of rain water whether it's a light shower or a heavy storm.
