

SZG-Sun Global Glass-Professional Glass Manufacturer-Building Glass-10.38mm White Opaque Laminated Glass

10.38mm white opaque laminated glass is a kind of safety glass made of two pieces of [5mm clear glass](#) sheets or [5mm ultra clear glass](#) inserted by 0.38mm white opaque PVB film. It looks like ceramic from the front. Thus, it also called ceramic laminated glass, 10.38mm porcelain laminated glass. 10.38mm white opaque sandwich glass has the same safety feature as [10.38mm clear laminated glass](#). When the glass is broken, the debris will still stick to the film and won't fall off, the whole glass panel is still in a complete shape before replacement, so that it can reduce injury.

Advantages of SZG 10.38mm white opaque laminated glass

1. Optical performance: 10.38mm porcelain laminated glass can effectively reduce the transmission of sunshine and lower the temperature.
2. Security, when the glass is broken, the debris will still stick to the film and won't fall off.
3. Non-transparent, can protect privacy effectively.
4. Sound proof, because the PVB membrane can block the sound transmission efficiently, 10.38mm porcelain laminated glass can reduce the noise.
5. Shock resistance: Can be extended to application of bulletproof glass, and explosion proof glass to prevent bullet, bomb and violent force, etc.

Specifications:

Glass name: 10.38mm white opaque laminated glass

Other name: 10.38mm porcelain sandwich glass; 10.38mm ceramic laminated glass; 10.38mm white opaque sandwich glass, etc..

Thickness available: 3+3mm, 4+4mm, 5+5mm, 6+6mm, 8+8mm, etc

PVB color for choice: Ultra clear, Opaque white, transparent, semi-transparent, opaque white, milk white, green, blue, bronze, grey and other pantone colors

Standard size: 1830mm*2440mm; 2134mm*3300mm, customized sizes.

Maximum Size: 3M*12M

Package: Packed with exportation wooden crates

Delivery: 17-15 days, urgent service is available

Container: LCL, 20'OT, 20'GP, 40'HC

Quality Control:

Nowadays, laminated glass is widely used in building, It is very important to control the quality of glass balustrade. The laminated glass produced by Sun Global Glass meets following standards:

1. Chinese Safety Glass Compulsory Certification (CCC) and ISO 9001.
2. EN 12150 CE certificate of European safety glass standard.

Application:

1. Used as glass door, floor, staircase,
