Optional glass type for 12MM frosted tempered glass for bathroom doors

If you just want a cost-effective glass for your bathroom enclosure/doors , tempered glass is a good choice .

But if you want a more safe glass type regardless of the cost ,then laminated glass is best choice , the main difference of the tempered glass and laminated glass is that when the toughed laminated glass is broken ,it will remain and stick on inter-layer PVB, while the toughened glass will be shattered into small pieces.

Optional glass color for 12MM frosted tempered glass for bathroom doors

Besides of the frosted color ,you can decide to use tempered glass/laminated glass for your shower doors in clear, ultra clear ,colored, and patterned .

Quality standards:

The tempered laminated glass produced by SZG glass factory meets standards as below:
