

## Frameless Glass Sliding Door

One of the most ingenious elements of a modern style house is the sliding doors. Apart from effortlessly defining one space from the other, it also serves as an unintended decorative element, as well as saves and maximizes the space; the latter evident in some homes favoring sliding doors over the traditional swing doors. Sliding doors have flexible designs and has since employed new and innovative materials and mechanisms since its early inception. In today's slowly rising trend on minimalist and innovative home design, many homeowner agree that installing and investing in a well-designed sliding door is the way to go.

## Characteristic

### **It brings the outdoors in.**

Sliding glass doors come with large glass area and rather narrow frames. This configuration allows you to gaze at your backyard and surrounding landscape without even leaving your home. The perfect combination of framing and glass also captures views so nicely.

### **It provides easy access to outdoors.**

Because the glass panels slide effortlessly to the side, you can easily go outside your patio or inside any room in your home. The unit doesn't require swing space so it won't interfere with entryways or nearby furniture.

### **It is visually appealing.**

Aside from framing a picturesque view, sliding glass patio doors complement most contemporary home styles. Glass door come in a wide range of colors and finishes that will enhance your home's curb appeal.

You can also choose to add grille options for extra charm.

### **It is energy-efficient.**

Our sliding door glass can be with low e coating for maximum energy efficiency. This glass has special coatings that reflect heat and harmful rays, keeping your home cool during hot days and warm during winter.

## **Installation**
