

SZG 13.52mm Euro Gray Reflective Tempered Laminated Glass- best building glass manufacturers and factory in China

13.52mm Euro Gray Reflective laminated glass is a kind of laminated glass, which is made of one layers of 6mm Light Gray Reflective tempered glass and one layer of [6mm clear tempered glass](#), sandwich together. The middle layer is PVB film, after heating and high-pressure special process, the two layers of glass adhesion together. With the process of lamination, the laminated glass is super strong and high protective against breakage. Laminated glass consider to be safety glass in modern building material market.

Euro Gray Reflective Laminated glass features:

- 1.Safety glass features: Due to PVB have good adhesive, laminated glass breakage will bond by pvb film and will not fall down. For this feature, laminated use widely as safety glass in modern buildings.
- 2.Tempered glass features: Euro gray reflective tempered laminated glass will break into small granular after breakage, the breakage will not harm human beings.
3. Good energy saving features: reflective glass belongs to solar energy saving glass, the reflective laminated glass have very good performance of solar energy saving effect, use widely as window glass and curtain wall glass or facade glass.
- 4.Sound resistance function: The density of film are different with glass so the film can stop sound transmission.
- 5.UV rays resistance: Tempered laminated glass reduces the penetration of UV rays and protect indoor objects from UV rays radiation.
- 6.Fire resistance function: Toughened laminated glass can protect buildings against fire, have the function of anti fire at some degree.

Specification:

Glass thickness :13.52mm light gray reflective laminated glass

Other glass thickness: 8.38mm Euro Gray reflective laminated glass,10.38mm Euro Gray reflective laminated glass,12.38mm Euro Gray reflective laminated glass,8.76mm Euro Gray reflective laminated glass,12.76mm Euro Gray reflective laminated glass,12.76mm Euro Gray reflective laminated glass,9.14mm Euro Gray reflective laminated glass,11.14mm Euro Gray reflective laminated glass,13.14mm Euro Gray reflective laminated glass,17.14mm Euro Gray reflective laminated glass,9.52mm Euro Gray reflective laminated glass,11.52mm Euro Gray reflective laminated glass,17.52mm Euro Gray reflective laminated glass etc

Min size: 300x300mm

Max size: 3300x13000mm

Glass thickness: 4.4.4 laminated glass,5.5.4 laminated glass,6.6.4 laminated glass,8.8.4 laminated glass, etc

Glass color: clear laminated glass,low iron laminated glass,dark green laminated glass,F green laminated

glass,bronze laminated glass,ford blue laminated glass,dark blue laminated glass,Euro gray laminated glass,dark gray laminated glass,frosted laminated glass,silk screen laminated glass etc.

PVB thickness: 0.38mm laminated glass,0.76mm laminated glass,1.14mm laminated glass,1.52mm laminated glass,1.9mm laminated glass

Quality Certificates:

13.52mm light gray energy saving laminated glass are produced strictly under ISO9001 Quality System and have passed following domestic and international quality standards:

1. 13.52mm light gray reflective laminated glass meet CCC(Chinese Safety Glass Compulsory Certification).
2. 13.52mm light gray reflective laminated glass meet China laminated glass standard GB9962.
3. 13.52mm light gray reflective laminated glass meet European safety glass standard EN12543, EN12510.

Applications:

Reflective laminated glass have wide range of usage in architecture with its good performance, mostly use in following two areas:

1. Glass windows
2. Glass facade, glass curtain wall

Picture details of 13.52mm light gray reflective laminated glass:

Product image:

Production Line:

半自动夹层玻璃生产线/Semi-Auto Laminated Glass Production Line

清洗烘干机
Washing and Drying Machine

合片室设备
Clean Room Equipment

预压机
Pre-pressing Machine

玻璃高压釜
Glass Autoclave

Package:

S Z G

Professional glass manufacturer
