Advantages:

- 1.Security: 13.52mm low iron printing curved laminated tempered glass has same safety advantages as laminated glass. When it's broken, the debris will still stick to the film and won't fall off.
- 2.High Strength: Curved Tempered laminated glass is 4-5 times harder than non-tempered laminated glass.
- 3.The 13.52mm extra clear curved laminated glass can reduce the transmission of ultraviolet light.
- 4.Various choices for patterns, it's artistic for decoration.

Applications:

- 1.Partition, storefronts glass.
- 2.Balustrade, railing, handrail, balcony.
- 4.Door, etc..

Specifications:

Product name: 13.52mm low iron printed curved tempered laminated glass

Other descriptions: 66.4 low iron curved toughened laminated glass, 6mm+6mm curved ESG VSG, 6mm+1.52PVB+6mm extra clear tempered laminated glass, 13.52mm super clear curved tempered laminated glass, super clear curved ceramic frit glass.

Combinations: 6mm low iron printed curved tempered glass+ 1.52mm PVB+ 6mm low iron curved tempered glass

Patterns: Any patterns, according to designs.

Available colors: Any Pantone colors.

Size: Customized sizes, jumbo sizes are available.

Notice:

All processes such as drilling holes, polishing edge, rounding corners, cutouts, cutting notches, etc. must be finished before being tempered and then laminated.

Production Equipment :

Quality standards:

SZG - tempered laminated glass are produced strictly in accordance with the requirements of the ISO 9001 quality management system certification and meets the following quality standards.

1. Chinese Safety Glass standard (CCC).
2. BS 6206 certificate of UK safety glass standard.
3. European safety glass quality standard: EN 14449 certificate (CE).
4. USA laminated safety glass quality standard: SGCC certificate.
