

SZG 13.52mm silk screen laminated glass- best building glass manufacturers and factory in China

13.52mm silk screen laminated glass is a kind of laminated glass, which is made of one layer of [6mm silk screen glass](#) and one layer of 6mm tempered glass sandwich together. The middle layer is PVB film, after heating and high-pressure special process, the two layers of glass adhesion together. With the process of lamination, the glass is super strong and high protective against breakage. It's a kind of safety glass.

Specification:

Glass thickness :13.52mm silk screen laminated glass

Other glass thickness: 9.52mm silk screen laminated glass, 11.52mm silk screen laminated glass, 17.52mm silk screen laminated glass, 21.52mm silk screen laminated glass, 25.52mm silk screen laminated glass, 31.52mm silk screen laminated glass, 39.52mm silk screen laminated glass etc

Min size: 300x300mm

Max size: 2440x3300mm

Glass thickness: 4mm+4mm laminated glass, 5mm+5mm laminated glass, 6mm+6mm laminated glass, 8mm+8mm laminated glass, 10mm+10mm laminated glass, 12mm+12mm laminated glass etc

Glass color: clear laminated glass, extra clear laminated glass, dark green laminated glass, F green laminated glass, bronze laminated glass, ford blue laminated glass, dark blue laminated glass, Euro gray laminated glass, dark gray laminated glass, frosted laminated glass, silk screen laminated glass etc.

PVB thickness: 0.38mm laminated glass, 0.76mm laminated glass, 1.14mm laminated glass, 1.52mm laminated glass, 1.9mm laminated glass

Laminated silk screen glass features:

1. Tempered glass features: silk screen laminated glass has tempered glass features, that is, break into small granular after breakage, will not harm human beings.
2. Safety glass features: Due to PVB have good adhesive, laminated glass breakage will bond by pvb film and will not fall down.
3. Sound resistance function: The density of film are different with glass so the film can stop sound transmission.
4. UV rays resistance: Silk screen laminated glass reduces the penetration of UV rays and protect indoor objects from UV rays radiation.
5. Fire resistance function: Silk screen laminated glass can protect buildings against fire, have the function of anti fire at some degree.

Applications:

13.52mm silk screen laminated glass mostly in following areas:

1. Glass railings, glass balustrade, glass fence etc.
2. Glass partition, glass partition wall, glass wall
3. Glass door, show door etc

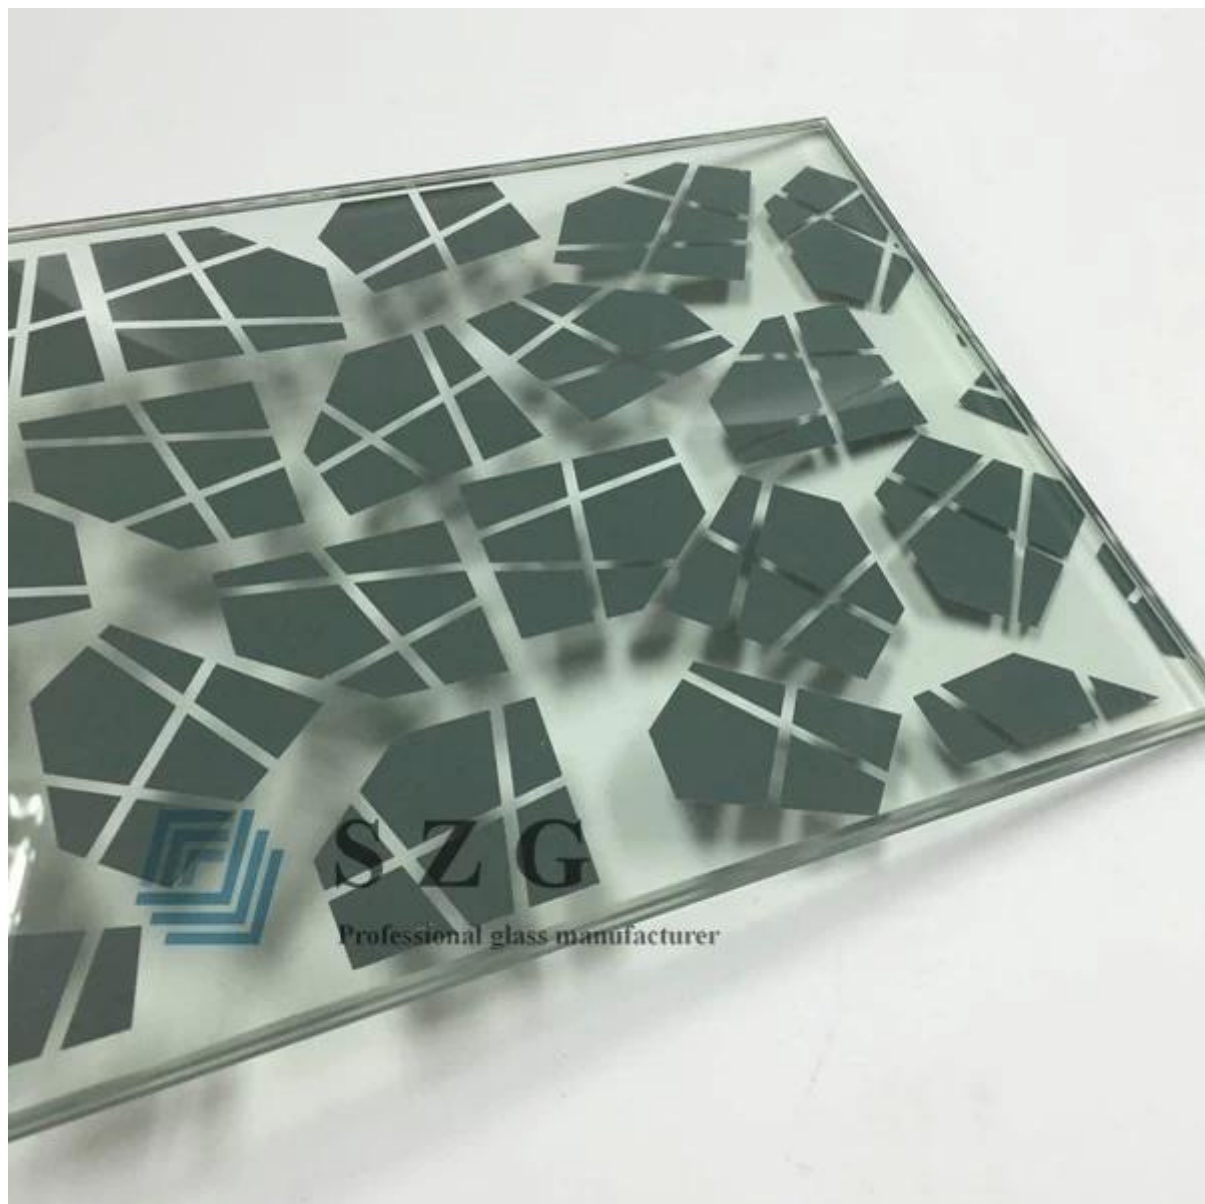

Quality Certificates:

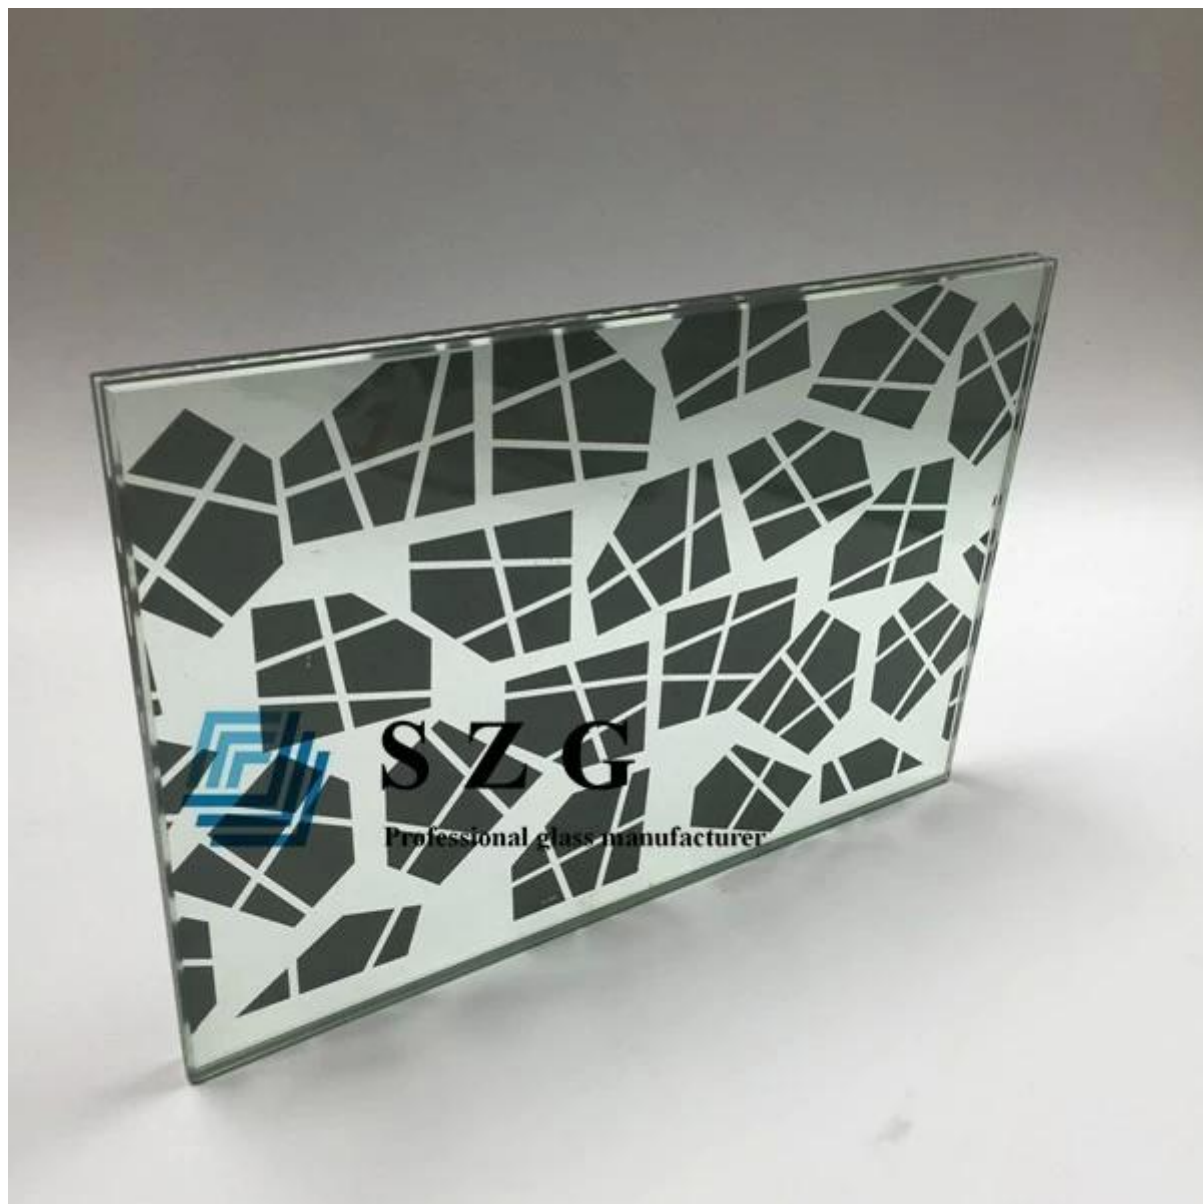

13.52mm silk screen glass are produced strictly under ISO9001 Quality System and have passed following domestic and international quality standards:

1. 13.52mm silk screen laminated glass meet CCC(Chinese Safety Glass Compulsory Certification)
2. 13.52mm silk screen laminated glass meet China laminated glass standard GB9962.
3. 13.52mm silk screen laminated glass meet meet European safety glass standard EN12543, E12510.
4. 13.52mm silk screen laminated glass meet British standard BS6206.
