

SZG-Sun Global Glass-Glass Manufacturer-Decorative Printing Tempered Laminated Glass

17.52mm digital printing tempered laminated glass is a kind of safety glass with with excellent adornment effect. It has the same safety features of normal tempered laminated glass. It's produced via making two pieces of 8mm tempered glass (usually the [clear tempered glass](#) or [ultra clear tempered glass](#)) tightly bond together by the PVB film after heating and high pressure. The difference between [ordinary tempered laminated glass](#) is that, it has patterns. The patterns can be printed on the PVB film or on the inner surface of the glass sheets.

Notice:

All processing such as polishing edge, rounding corner, drilling holes, cutout, cutting notches, etc. must be finished before being printed, tempered and then laminated.

Specifications:

Product name: 17.52mm digital printing tempered laminated glass

Thickness of single glass panels: 4mm glass, 5mm glass, 6mm glass, 8mm glass, 10mm glass, 12mm glass, 15mm glass, 19mm glass

Composition: 8mm tempered glass+ PVB (1.52mm)+8mm tempered glass

Available patterns or colors: All patterns and all pantone colors.

Maximum Size: 3M*12M

Package: Packed with strong exportation wooden crates

Delivery: 10-15 days, urgent services are available

Container: LCL, 20'GP, 20'OT, 40'HC, etc.

Quality standards:

1. Chinese Safety Glass Compulsory Certification (CCC) and ISO 9001.
2. BS 6206 certificate of UK safety glass standard.
3. EN 12150 CE certificate of European safety glass standard.

Features:

1. All processing such as drilling holes, polishing edge, rounding corners, cutouts, cutting notches, etc. must be finished before being printed, tempered and then laminated.
2. Safety: When the printing tempered laminated glass panel is broken, the debris will still stick to the film and won't fall off. It can reduce injury.
3. The 17.52mm printing laminated glass has sound insulation effect. .
4. High Strength: Compared to non-tempered laminated glass, printing tempered laminated glass is 4-5 times harder.
5. Aesthetic appearance: Printing laminated glass like a work of art with excellent adornment effect.

Application:

1. Used as glass table top or table covering.
2. Can be used as glass partition wall, glass railings, glass ceiling.
3. Can be used as glass door, glass floor, glass staircase,
4. Used as decorative wall, especially for hotels.
