

## SZG- China glass factory-Printing glass for refrigerator door

**3.2mm tempered printing refrigerator door glass** is a kind of tempered safety glass. It's manufactured via making the clear glass or low iron glass with printings in colors or pictures on glass surface. After printing process, the glass will be heated with tempering process to make ceramic paint incorporated onto glass surface. After that, the glass will be extremely resistant to scratch, acid, and alkali, and the color of glass won't fade. The printing looks like pictures.

### **Specifications:**

Glass type: 3.2mm digital printing tempered glass

Available colors: All pantone colors /RAL and OEM patterns

Size: Customized sizes

Thickness: 3.2mm, 4mm, 5mm, 5.5mm, 6mm, 8mm, 10mm, 12mm, 15mm, 19mm, etc.

Package: Strong exportation plywood crates

Delivery: 10-15 days after deposit is received.

Containers: LCL, 20'GP, 20'OT, 40'HQ, etc.

### **Kindly reminder**

All processing such as polished edge, safety corner, drilling holes, cutout, cutting notches, etc. must be finished before being printed and tempered.

### **Production Equipment**

## Advantages

1. Strength: The 3.2mm printing tempered glass is about 4~5 times harder than 3.2mm non-tempered glass, it can withstand heavier impacts.
2. Safety: 3.2mm silk printed toughened glass will become small cubic pieces without sharp edges and

corners when it's broken.

3. Good decorative effects, any colors of Pantone and RAL charts are available. The patterns on glass can be any picture.

4. Firm printings, the colors or patterns of glass won't fade or be scratched.

### **Applications of printing glass**

1. Vertical refrigerator door;

2. Glass partition wall, screen wall;

3. Handrail, railings, balustrade, balcony;

4. Table top;

5. Oven;

6. Glass door;

7. Flooring, staircases;

**Other type of refrigerator door-insulated glass you may be interested in.**

## **Strict quality control**

We conduct strict quality inspection after every process and before delivery.

## SZG Glass Quality Standards

SZG - Printing tempered glass is produced strictly in accordance with the requirements of the ISO 9001 quality management system certification and also meets the following quality standards.

1. Chinese Safety Glass standard (CCC).
2. BS 6206 certificate of UK safety glass standards.

3. European safety glass standard: EN12150

4. ANSI Z97 USA quality standards.

## Safety Packing

We pack the glass with standard plywood exportation crates.
