

SGG 4mm Flora Clear Patterned Glass supplier and manufacturer with super quality

4mm Flora Patterned Glass is one of the popular kinds of patterned glass. It's engraved a decorative texture by steel mold, on one side of the glass surface. By this process, 4mm flora clear patterned glass permits light transmits diffusely and prevents clear vision through at the same time. It's also called 4mm flora clear figured glass, or 4mm flora clear rolled glass. With different patterns applied, the glass has different degrees of translucency and privacy. 4mm flora clear patterned glass offers a wide range of designs and conceptions for interior and exterior decoration projects. 4mm flora clear patterned glass can be made of 4mm patterned tempered glass or 4mm patterned laminated glass to meet with security requirements of some projects.
