

SGG Green Tinted Float Glass 4mm - Excellent decorative glass options

Tinted float glass which reduces both visual and radiant transmittance, is produced by the float process with the addition of small quantities of metal oxides to color the normal clear glass mix. This coloration is achieved through adding metal oxides at the smelting stage.

Features:

- 1. UV rays:** tinted float glass can reduce 80% of the transmission of harmful ultraviolet radiation.
- 2. Solar control:** tinted float glass can efficiently reduce heat transmission and solar control.
- 3. Decorative:** natural tinted colors offer more excellent options for exterior and interior decoration.
- 4. Deep process:** perfect quality of glass for deep processing, cut to size, edge polishing, tempering, lamination, and insulate.

Applications of green tinted float glass 4mm:

1. green tinted float glass 4mm can be used directly for windows, doors
2. green tinted float glass 4mm can be tempered, laminated, and insulated so it can apply to glass wall, glass facade, glass railings, glass balustrade, glass balcony, glass partition, glass table tops
