

SZG Glass Manufacturer- High Quality Glass For Building- Bronze Tinted Float glass 5.5MM

5.5mm bronze tinted float glass is a kind of popular colored float glass which is produced in the same way as [clear float glass](#), except adding metal or other elements to the glass during the production. It's also called 5.5mm brown tinted float glass, bronze colored float glass, etc. 5.5mm bronze tinted glass not only can significantly absorb the heat rays energy from the sunshine, but also keep the good energy-saving and transparency feature of decorative glass. Thus, it's popular to be used in the modern building.
