

SGG 5mm light blue reflective glass - Energy saving glass

5mm light blue reflective glass is a kind of energy-saving glass . It's also called 5mm ford blue reflective float glass, 5mm light blue coated glass, 5mm solar control glass, etc. It's produced via applying the coating on the surface of [5mm light blue tinted float glass](#). Compared to 5mm light blue tinted glass, 5mm light blue reflective glass has the appropriate transmittance for visible light and could blocks the ultraviolet and infrared light and can meet the energy-saving requirements more efficiently.

Reflective glass type:

- 1.On-line reflective glass is also called Hard Coating Reflective Glass.The coating process is proceeded when the tinted float glass is in production and the furnace of glass is still hot.
2. Off-line reflective glass is also called Soft Coating Reflective Glass. The coating process is proceeded after the production of 5mm light blue tinted glass. and the reflective float glass can't be placed for a long time. Compared with Online reflective glass, the Off-line reflective glass is easier to be oxidized, so it's always used as inner layer of laminated glass, insulated glass etc.

5mm light blue reflective glass specifications:

Glass name: 5mm light blue reflective glass

Other names: 5mm light blue coating glass, 5mm light blue coated float glass, 5mm light blue reflective float glass, 5mm ford blue reflective glass, 5mm light blue energy saving glass, 5mm ford blue coated glass, etc.

Other colors: clear, dark blue, dark grey, light grey, dark green, light green, bronze, golden, etc.

Thickness: 4mm 5mm 5.5mm 6mm 8mm 10mm

Stock size: 1650x2140, 1830x2440, 2140x3300, 2140x3660,customized sizes

Package: Packed with strong exportation wooden crates

Features:

- 1.Solar control: 5mm light blue reflective glass can efficiently reduce the sunlight and blocks the solar radiant energy into the interior.
- 2.For deep process: 5mm light blue reflective glass is available for tempered, laminated, insulated process, with high tempered rate.
- 3.Decorative effect: The colored Reflective glass can offer more excellent options for exterior and colorful decoration.

Application:

1. 5mm light blue reflective glass can be processed into [insulated glass](#), 5mm light blue reflective glass [tempered glass](#) and laminated glass for wide applications of building and furniture.
2. 5mm light blue reflective glass can be made of light blue glass mirror.
3. 5mm light blue reflective glass can be cut and made of windows, doors.
4. 5mm light blue reflective glass is popularly used as curtain wall, glass facade ,etc.
