

SGG 6mm F-Green reflective glass - Energy saving glass

The [reflective glass](#) is also called [coated glass](#). It's covered with the metal or metal compound coating on the glass surface. The coating not only makes the reflective glass have colorful decorative effect, but also has a good effect on reflecting the heat rays. So it's a kind of energy saving glass, can reduce the air conditioning consumption.

The reflective glass has Online reflective glass and Offline reflective glass:

1. Online reflective glass is also called Hard coating reflective glass. The coating process is proceeded when the float glass in producing and the glass still hot in the furnace.
2. Offline reflective glass is also called Soft coating reflective glass. The coating process is proceeded after the float glass finish the production and the float glass could't be placed for a long time. Compared with Online reflective glass, the Offline reflective glass is easy to oxidized, so always deep processed as laminated glass, insulated glass etc.

6mm F-Green reflective glass specifications:

1. Glass type: reflective glass
2. Color: Bronze, Euro Grey, Dark Grey, F-Green, Dark Green, Ford Blue, Dark Blue, etc.
3. Thickness: 4mm 5mm 5.5mm 6mm 8mm
4. Standard Size: 2140*3300mm, 2140*1650mm, etc
5. Glass packing: Exportation plywood crates
6. Delivery time: 3-7 days after deposit
7. Application: windows, balcony, facade, curtain wall, etc.

Features:

1. Solar control: The reflective glass could efficiently blocks the solar radiant energy come into the room, so it can reduce the air conditioning consumption, is a kind of energy saving glass.
2. Decorative: The colored Reflective glass enrich the colors of buildings.
3. Deep process: SGG excellent quality hard coated Reflective glass is suitable for Tempered, laminated, insulated etc.
