

6mm gold reflective tempered glass supplier, heat control tempered reflective glass ,reflective tempered glass panel in china .

6mm gold Reflective tempered glass be coated one or more layers of metallic compound surface on glass, it can effectively control the reflection of sun's rays, transmission and assimilate. Due to the good capability of heat reflect on the film, it can reduce the accumulation of indoor heat, because it can present rich and colorful reflect tone on the glass, it can make the outer of the building floweriness and polychrome.

Features

- 1 **High visible light transmitting rate**, low reflecting rate, low radiating rate
- 2 **Avoid the light pollution** and building good ecological environment
- 3 **Control solar energy radiation effectively**, block far infrared radiation, save expenses of air conditioners in summer, save heating expenses in winter, have good effect of heat preservation and energy saving
- 4 **High quality**, can be cut, bent, tempered, heat strengthened and laminated without affecting the coating.

Specification

Glass name 6mm gold reflective tempered glass

Thickness: 4mm-10mm or customized

Raw glass size 2140X3300mm, 1830x2440mm, we will process based on raw glass size

Function: heat control, high strength, safety glass

Compound glass Laminated glass, insulating glass, ceramic fritted patterned glass, curved glass

Shenzhen Sun Global Glass

Application

- * Architectural Facades
- * Partitions, Shop Fronts, Show Cases
- * Shelves, Consoles, Folding Screens ,window

Product line and packing

6mm gold Reflective tempered glass conforms to the standards of Europe, North American and China, ISO, CCC, CE, BS6206, EN12510 ANSI Z97 etc.
