

SZG-Glass Manufacturer-6MM Low Iron Silk Screen Printing Toughened Glass

6mm low iron silk screen printing tempered glass is a kind of tempered safety glass with good effects for decoration. It's manufactured via adopting silk-screen printing process. First, printing the ceramic paint according to the design of patterns on the surface of [6mm low iron glass](#), then the glass will be heated with tempering process to make ceramic paint incorporated onto glass surface. After that, the glass will be extremely resistant to scratch, acid, and alkali, and the color of glass won't fade.
