

## **SGG 8.38mm light blue laminated glass- building glass manufacturers**

8.38mm light blue laminated glass is made of two pieces of [4mm light blue glass](#) sheets or one piece [4mm clear glass sheet](#) and another piece light blue glass sheet inserted by clear PVB of 0.38mm thickness. After heating and high pressure, both of the glass sheets are tightly together by the PVB film. 8.38mm light blue laminated glass is a kind of safety glass which can reduce people injury from glass breakage efficiently, because when the glass is broken, the debris will still stick to the film and won't fall off, the whole glass is still in complete shape to offer protection before replacement. 8.38mm light blue laminated glass looks similar to the [8mm light blue glass](#).

### **Type of laminated glass:**

1. EVA film laminated glass, This type of laminated glass use as indoor decoration with richful design and colors, the adhesive of EVA laminated is not very strong and can not use outside.
2. PVB film laminated glass, This type laminated glass use most widely compared with other types laminated glass. Because PVB laminated glass have good function of adhesiveness and its price is not high compared with SGP laminated glass.
3. SGP laminated glass, SGP laminated glass use as hurricane resistance glass. The SGP glass have very strong adhesiveness and can be used the area which need strong bonding.

### **Features:**

1. Optical performance: 8.38mm light blue laminated glass can effectively reduce the transmission of sunshine and lower the temperature.
2. Sound proof, because the PVB membrane can block the sound transmission efficiently, 8.38mm light blue laminated glass can reduce the noise.
3. Shock resistance: can be extended to application of bulletproof glass, and explosion proof glass to prevent bullet, bomb and violent force, etc.
4. Security, when the glass is broken, the debris will still stick to the film and won't fall off.
5. Can be cut to the size in need, edge polishing and made of insulated glass laminated glass, frosted glass, etc. Good quality glass for processing.
6. Transparency: You can observe the views outside when you look through the 8.38mm light blue laminated glass.

### **Applications:**

1. Can be used as glass door, floor, staircase,

2. Can be made of table top, table covering.
3. Can be used as glass railings, fence, cilling, facade, partition wall.

### **Specifications:**

Glass name: 8.38mm light blue laminated glass

Other name: 8.38mm light blue sandwich glass; 8.38mm blue laminated glass; 8.38mm VSG glass, 8mm blue sandwich glass, 4+4 laminated glass

Thickness: 8.38MM

Thickness Of single glass: 4mm, 5mm, 6mm, 8mm, 10mm, 12mm, 15mm, 19mm

Glass color: clear+light blue

Available PVB color : transparent, semi-transparent, opaque white, milk white, green, blue, bronze, grey and other pantone colors

Standard size: 1830mm\*2440mm; 2134mm\*3300mm, or customized sizes are available

Maximum Size: 3M\*12M
