

SGG 8mm curved tempered glass building glass manufacturers in China

8mm Curved tempered safety glass/ 8mm curved toughened safety glass is [8mm annealed glass](#) heated to softening point (about 600 degrees Celsius), according to a certain radius of the cool treatment, the surface strength doubled, the original flat surface become to curved surface of the glass.

Features

- 1. No harm for human beings:** 8mm Curved tempered Glass broken into small pieces of obtuse honeycomb particles, will not harm the human body.
- 2. Hardness:** The hardness of 8mm curved tempered glass is 5 times than [8mm annealed float glass](#).
- 3. Good thermal stability:** 8mm Curved tempered glass can withstand the temperature is 3 times [8mm ordinary glass](#) and can withstand 300 degrees Celsius temperature changes.

Applications:

Curved tempered glass use widely in modern buildings, see as below:

1. Curved glass wall
2. Curved glass ceiling
3. Curved glass Fence/ Railing/ Balustrade
4. Curved glass partition
5. Curved glass furniture
6. Curved glass home appliance

Specifications:

Thickness: 5mm 6mm 8mm 10mm 12mm 15mm 19mm

Customized size: Max: 5600mm*2400mm, Mini: 400mm*600mm

5-6mm mini radius: 1000mm

8-12mm mini radius: 1500mm

15-19mm mini radius: 2000mm

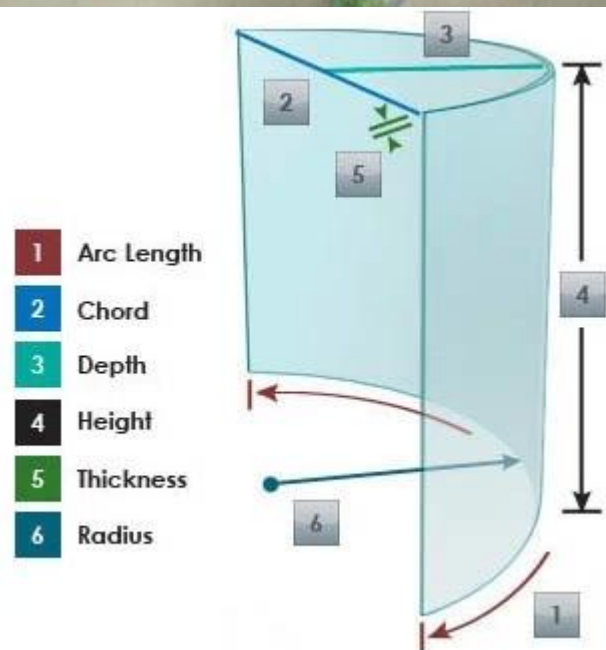

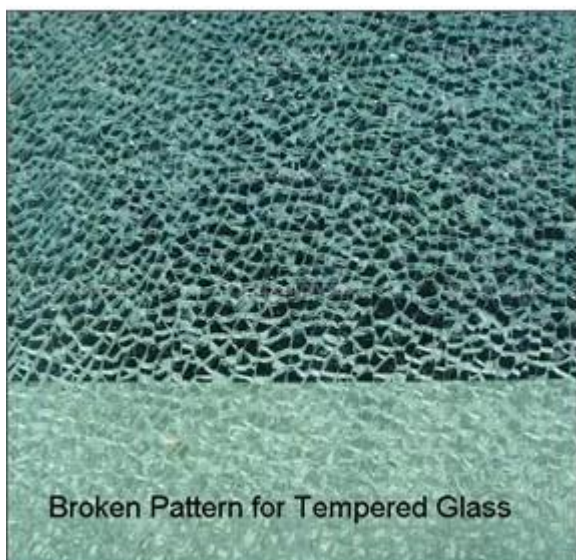

Color: clear, ultra clear, acid etched, gray, green, blue, bronze or any color based on Pantone chart.

Quality:

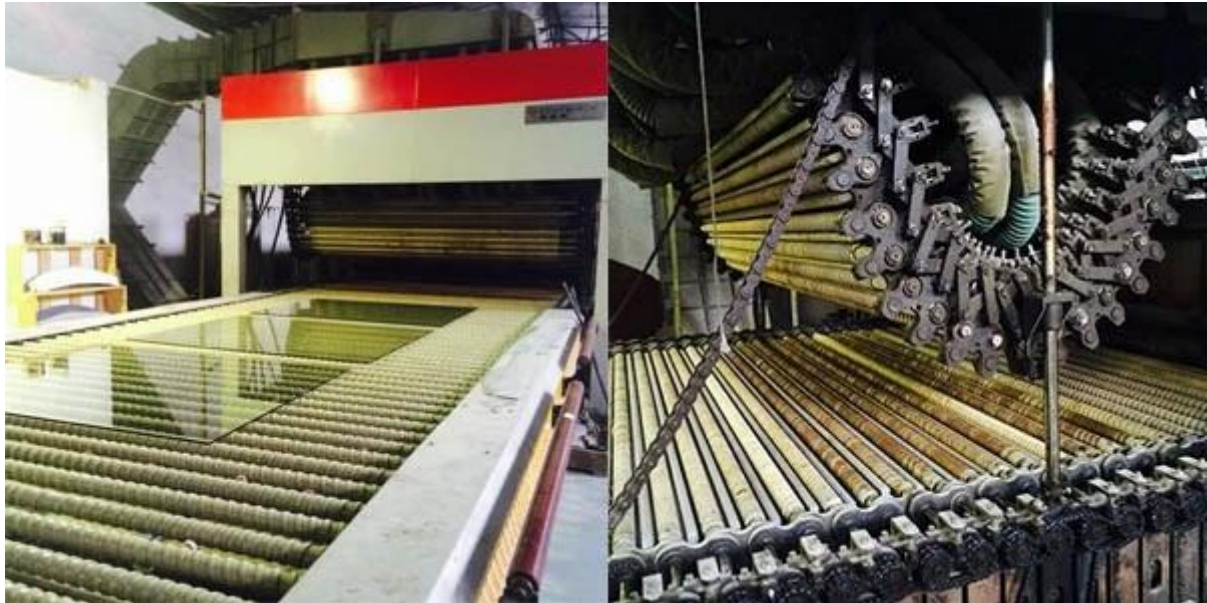

1. 8mm curved tempered glass meet BS 6206 UK safety glass standard.
2. 8mm curved tempered glass meet EN 12150 CE European safety glass standard.
3. 8mm curved tempered glass meet Chinese Safety Glass Compulsory Certification (CCC)
