

## **SZG-Glass Manufacturer-Building Glass-8mm toughened black fluted glass**

**8mm toughened black fluted glass** is made by normal clear glass or ultra clear glass. It's a type of decorative glass which is popularly used as shower glass, doors, office partition, facades, balustrade, handrail, etc. The toughened black fluted glass has the safety features of normal tempered glass. It's custom-made according to clients' design, including thickness, size, colors, fluted spacing. Except for the black backing, we can adjust the fluted glass with backing in any color.

**Images of 8mm black tempered fluted glass:**

**Shenzhen Sun Global Glass**

**Notice:**

All processes such as drilling holes, polishing edge, rounding corners, cutouts, cutting notches must be finished before being tempered.

**Advantages of 8mm reeded tempered glass :**

1.Strength: The 8mm tempered fluted glass with black backing is about 4~5 times harder than non-

tempered glass, it can withstand heavier impacts.

2.Safety: When the 8mm fluted toughened glass is broken, it will become small cubic pieces without sharp edges and corners .

3.Tempered fluted glass is excellent for decoration.

4.The color fluted glass is custom-made, it can meet clients' requirements well.
