

SGG Silk Screen Printed Glass 8mm - Multiple designs provide individuality, style and privacy.

Silkscreen printed glass is applying a thin layer of ceramic paint onto the glass surface by adopting silk-screen printing process. It is allowed to dry and then heated with tempering process to make ceramic paint incorporated onto glass surface. The final glass is extremely resistant, that scratch proof, acid and alkali resistant, never fade color. For the similar process of tempered glass, silk screen printing glass has all the characteristics of toughened glass. it is a popular decorative safety glass.

What's the difference between silkscreen glass and lacquered glass?

1.Silk screen glass is produced in high temperature□produced with the same tempered machine as tempered glass.So the painting isn't faded and fall apart. Silk screen glass has high resistance in scratch ,acid, and alkaline.also can withstand the changes of temperature.

2. Lacquered glass is also called oil painted glass,the color is very bright and have many color options.So lacquered glass has a excellent performance in decorating .lacquered glass was baked in a low temperature about 30-45°C.So the color is not quite stable.It may be fall apart especially in humidity.

Features:

- 1.Safety:the silk screen printed glass technique is produced in high temperature that same quality with tempered glass, 5 times harder than normal annealed glass.
- 2.Fastness painting: toughened glass process to make pattern color extremely resistant to scratch, acid, and alkaline, the printing on glass will not fade .
- 3.Customized Design□ any pattern size, logo placement, or full size printing, only need to provide CAD drawings.
- 4.High pixel□ High pixel that highest close to pantone & RAL colors to ensure customer satisfied

Advantages:

It is a kind of perfect decorative material

Due to the process of tempering ,it is 5 times stronger that annealed glass

Resistant to the thermal shock

Highly safety reduce the injury

The layer of silk screen painting more durable_

Application:

Bathroom

Table top glass

glass door and balcony

Glass furniture, wardrobe and cupboard

Quality:

1. high-definition printing by ultimate digital printing technique
2. most possible close to design colors
3. accurate printing size
