

SZG 10mm tempered glass roof skylight - best roofing glass factory and manufacturer in China

10mm tempered safety glass for Roofing glass is to use [10mm toughened glass](#) for this type of glass, to create a fully glazed roof to any space or room. Glass roof constructions and rooflights make house and buildings bright, energy efficient, solar control etc. Glass roofing are the most effective way to allow the largest possible amount of natural light to enter a space.

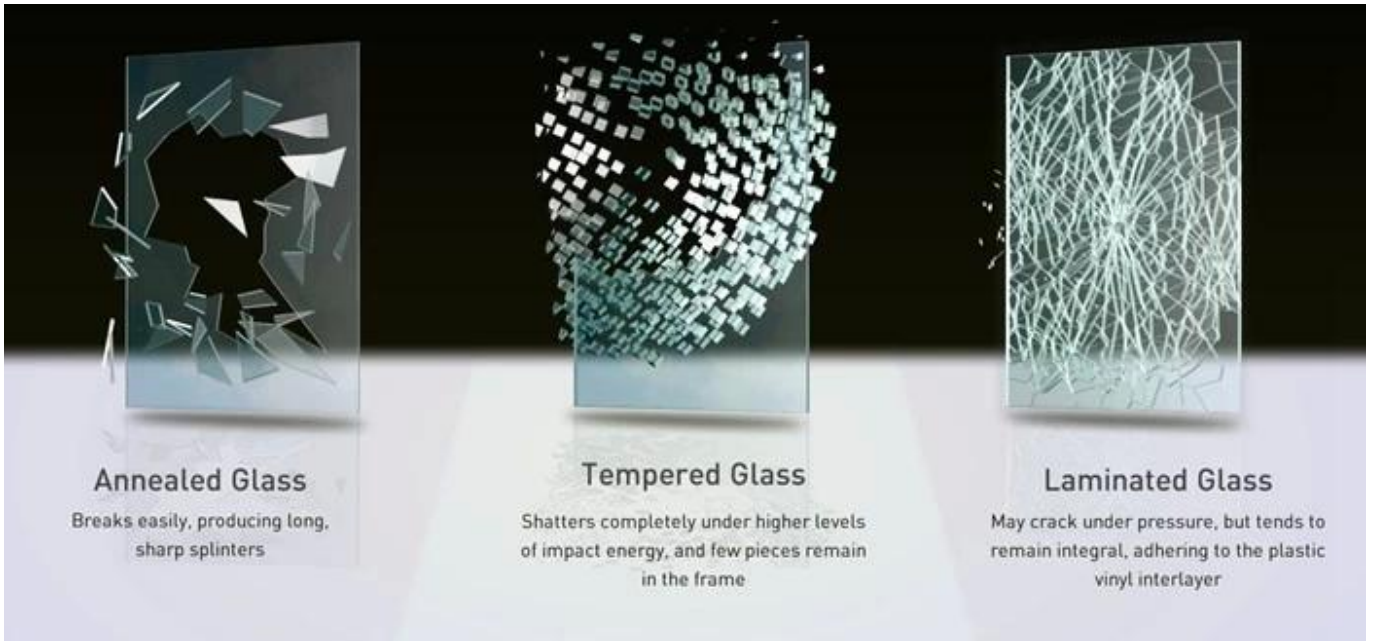

Types of glass use for roof:

Toughened glass

Toughened glass is a kind of safety glass, can use as roof glass.

Laminated glass

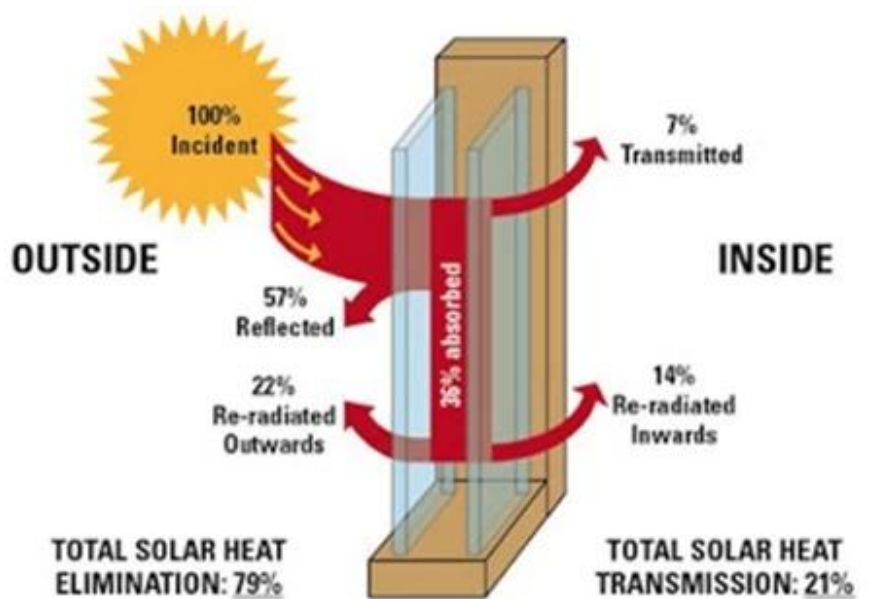

laminated glass use widely as roof, due to laminated glass features. The glass breakage will not fall down after glass broken, and a good choice for glass roofing.

Insulated glass

Insulated glass or insulated glass with laminated design. Insulated glass have good control of solar energy and isolated noisy, it is a good choice for roof glass, especially in hot area, frozen area or noisy place.

Computer-controlled, the Phoros Glass double glazing line bonds the two Sheets of glass to precise tolerances with a special dual seal around an aluminum spacer. It can produce individual windows up to 2.7 by 1.8 meters.

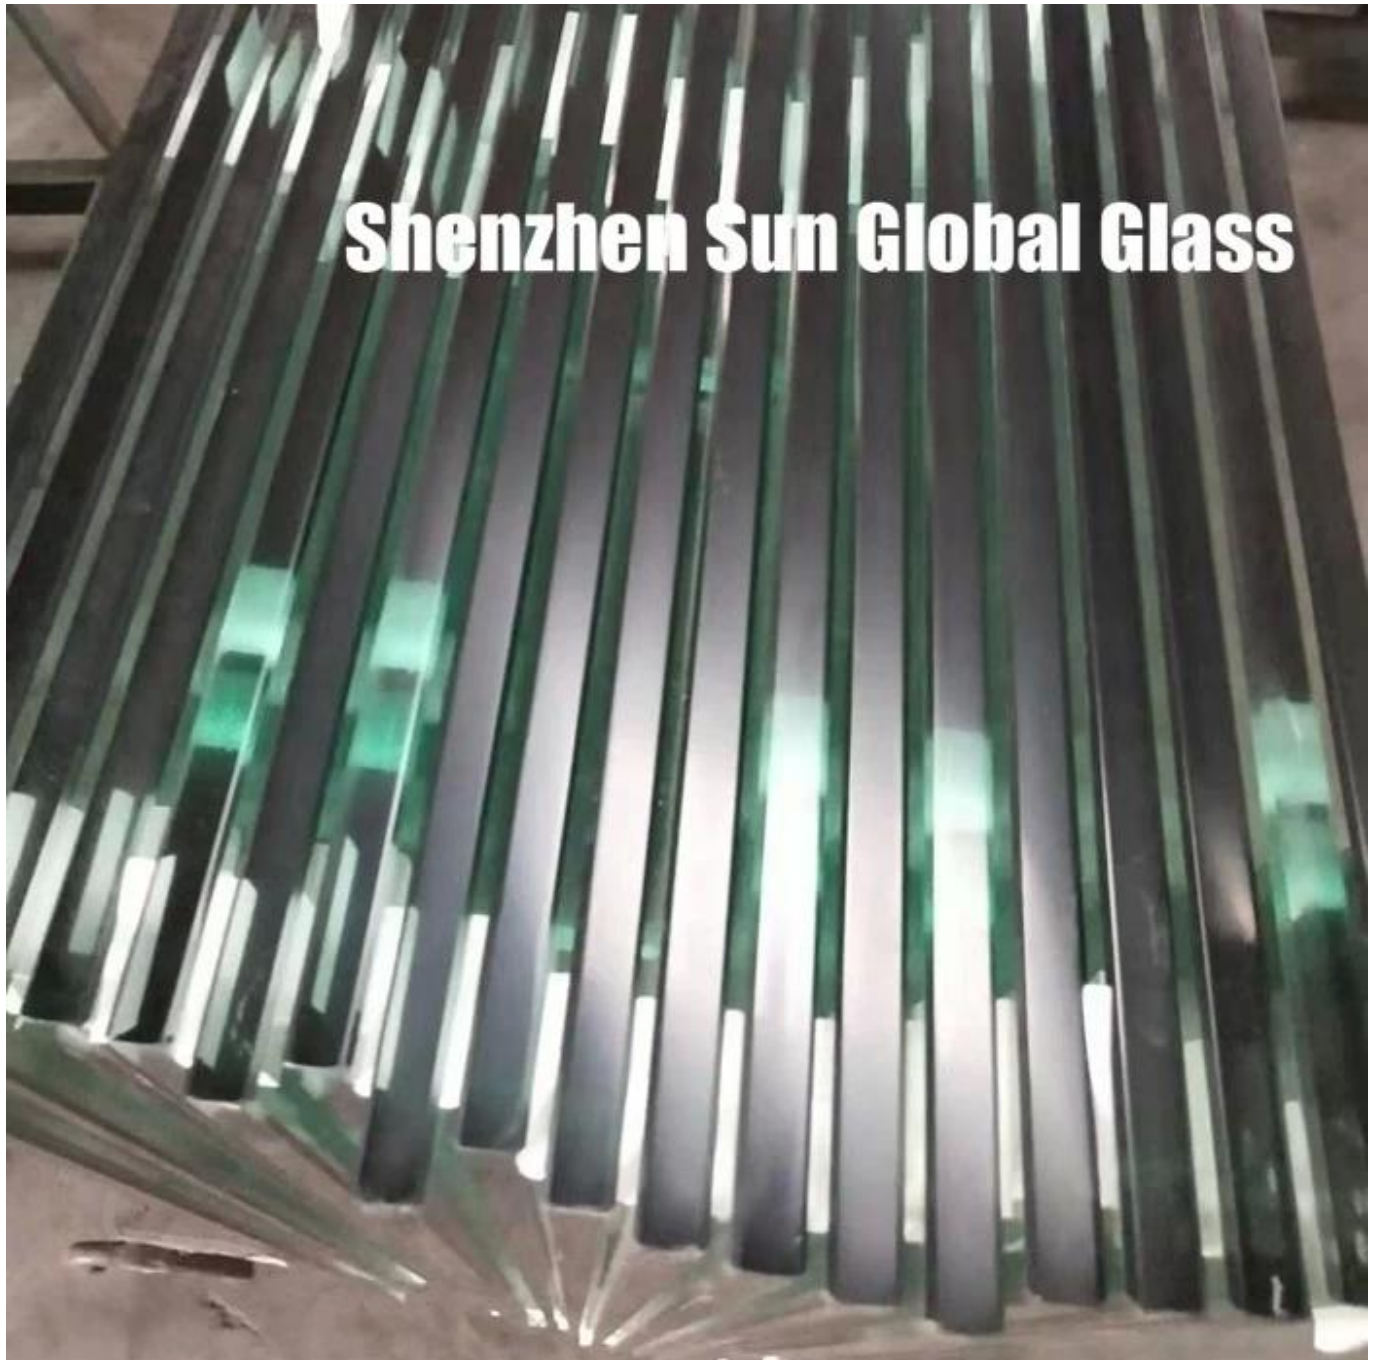

Specification:

Glass type: tempered glass, laminated glass, insulated glass etc

Thickness: 4mm toughened glass roofing, 5mm toughened glass roofing, 6mm toughened glass roofing, 8mm toughened glass roofing, 12mm toughened glass roofing etc

Size: customized size based on client's drawing

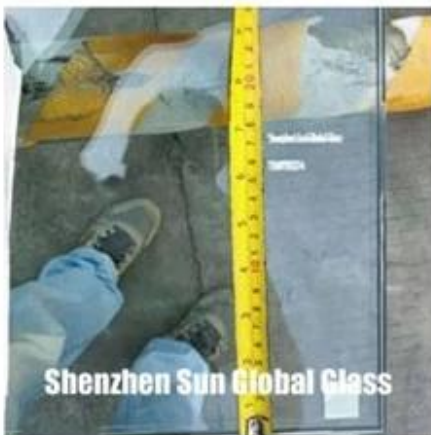

Features:

1. Toughened roof glass is much stronger and hard than annealed glass, belongs to safety glass.
2. Tempered roof glass can make the room enter the largest amount sunlight.

Inspection:

Our factory take careful inspection before delivery, see as below:

Quality Control:

All our glass are produced under ISO9001 quality system. Our roof glass pass below domestic and international standards:

1. 10mm clear tempered glass roofing panels meet Chinese Safety Glass Compulsory Certification (CCC).
2. 10mm clear tempered glass roofing panels meet China Construction Glass Standard GB15763.2.
3. 10mm clear tempered glass roofing panels meet European quality standard CE EN12150 certificate.
4. 10mm clear tempered glass roofing panels meet American quality standard SGCC ANSI Z97 certificate.
