

China 6mm Green Tinted Float Glass factory

6mm dark green float glass is produced by the float process with the addition of small quantities of metal oxides to color the normal clear glass mix, which reduces both visual and radiant transmittance. This coloration is achieved through adding metal oxides at the smelting stage and can effectively reduce heat transfer and sunlight control.

Specifications:

Glass type: 6mm dark green glass

Other name: green glass, green tinted glass

Other color: bronze, grey, blue, etc.

Thickness: 3mm 4mm 5mm 5.5mm 6mm 8mm 10mm 12mm

Stock size: 1830x2440, 2140x3300, 1650x2140, 2140x3660, customized size

Package: strong exportation wood crates

Delivery: 3-7 days

Container: 20'GP

Features:

1. UV rays: 80% of the transmission of harmful ultraviolet radiation can be reduced by green tinted glass.
2. Solar control: Colored float glass can effectively reduce heat transfer and sunlight control.
3. Decorative: tinted glass can offer more excellent options for exterior and colorful decoration.
4. Deep process: High quality glass for deep processing, can be cut to size, tempered, edge polishing and made of laminated glass, insulated glass, frosted glass, etc.

Application:

1. 6mm green tinted glass can be made of windows, doors and for widely applications of construction and furniture.
2. 6mm dark green glass can be tempered, laminated, and insulated so it can be used for Curtain wall, glass facade, glass table tops, glass railings, glass balustrade, glass partition, glass balcony and so on.
3. 6mm green glass sheet can be made of green glass mirror.
