Laminated glass

striped glass

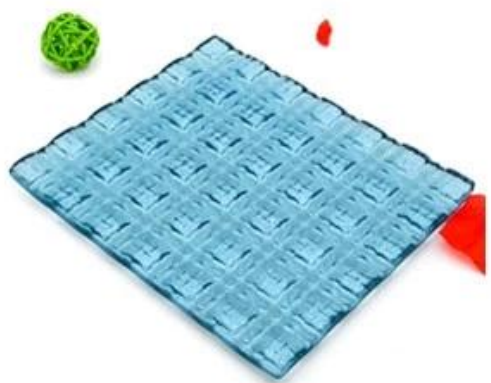

1.Hot melt glass, also known as crystal three-dimensional art glass, fused glass, fusing glass, cast glass and kiln formed glass.The workers put the glass sheet and inorganic

colorant into the melting furnace, which is heated to a certain point of temperature in order to form texture, fuse or bend, thus to create unique patterns on the glass surface.

2. Because of its unique decorative effect, hot-melt glass has become the focus of attention of designers and owners, more and more popular use on buildings and furnitures like partition walls, doors and windows, hotel furniture decoration, TV setting walls, sitting room sofa walls, etc.

Products Description
