

Full cassette motorized roof awning is specially used in the top of the sun room. It is a necessity for the sun room in the hot summer. It is characterized by pneumatic bar, which greatly enhances the stability of the awning retracting. It is suitable for large-area use. Besides, the heat insulation effect is far better than all kinds of indoor awning products of glass room, can significantly reduce indoor temperature, so as to achieve energy saving effect. It can also directly replace steel structure sunshine room and acrylic sunshine panel room project, with more flexible and versatile functions.
