

## Motorized Retractable Cassette Awning

Cassette awning is novel and stylish, it is produce by materials of aluminium alloy frame and PVC fabric. The sturdy aluminum frame makes the shape strong and elegant. The outer shell of the canopy is treated by high-temperature spraying on the surface, which has high anti-oxidation and long-lasting brightness. The awning shell arc is elegant and smooth. When closed, it can effectively wrap the fabric and the arm in the awning body, ensuring that the fabric is not corroded by dust even when not in use.

## **Type of Cassette Awning**

### **Full-Cassette Awnings**

The full-cassette awning is designed to enclose the awning fabric, arms and roller mechanism to protect them from all types of weather. When the awning is fully closed, the fabric rolls inside the cassette

completely and the arms fold inwards. This protects the awning fabric and moving parts from the wind and the rain and provides a neat and tidy aesthetic.

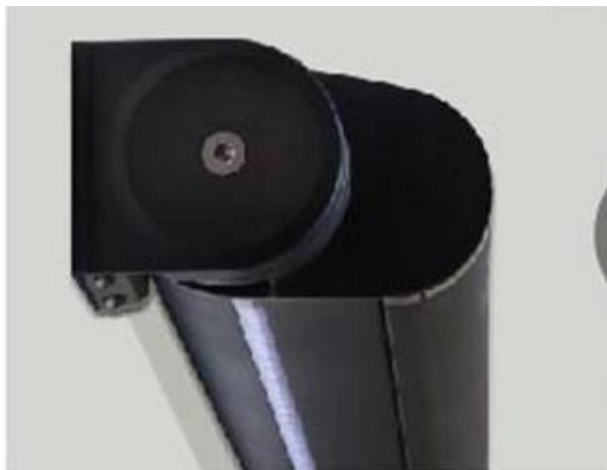

## **Semi-Cassette Awnings**

Providing partial cover for the awning fabric, arms and mechanisms, semi-cassette awnings are perfect for more sheltered gardens and patios.

## Details

VS  
GOOD

Dreammaker products solve the problem that traditional cassette-type awning cannot be closed tightly, and the overall sealing is more better

VS  
GOOD

We use large size arm tube and 304 stainless steel chain to greatly increase the strength of the arm and high performance

VS  
GOOD

The plastic parts of the end cover of the awning are UV-treated and chrome plated, which can effectively prolong the service life of the product and improve the appearance of the product.

## Our Factory

1. We continuous innovative the technical, rich the fabric color and design. We use high quality fabric brands, can promise not fade for 8-10 years.
2. We have many designs and models for your choices.
3. We only use aluminium alloy as raw material to be the frame, which can provide the best quality for our customer.

## Package

We use very good package materials, the awning goods will be put into a clear plastic bag before wrapping with a few layers of plastic foam and then put into a carton, finally we will add wooden plank to reinforce each corner of carton and make sure it is stronger.

Welcome to send us inquiry with your detail requirement and question.
