

SZG 9.52mm laminated glass with 50% dots silk screen design- best processed glass manufacturers and factory in China

laminated tempered clear glass 4+4mm painted #4 surface 50% pattern white color, which is made of one layer of 4mm silk screen glass and one layer of [4mm tempered glass](#) sandwich together, and the middle layer is 1.52mm PVB film. the glass is super strong and high protective against breakage after heating and high-pressure special process, due to the two layers of glass adhesion together. It's a kind of safety glass use widely in modern building construction.

Laminated tempered glass features:

1. Tempered glass feature: after breakage, will break into small granular after breakage, will not harm human beings.
2. Laminated glass features: Due to PVB have strong bondness, laminated glass breakage will not fall down and stick by pvb film and .
3. Laminated glass with 50% dots silk screen printing design, can make light pass through and have good appearance.

4. This kind of design make glass have the function of anti slip effect.

5. UV rays resistance: Printing laminated glass reduces the penetration of UV rays and protect indoor objects from UV rays radiation.

Specification:

Glass: 9.52mm laminated glass with dots printing

Other glass: 11.52mm laminated glass with dots printing, 13.52mm laminated glass with dots printing, 17.52mm laminated glass with dots printing, 21.52mm laminated glass with dots printing, 25.52mm laminated glass with dots printing, 31.52mm laminated glass with dots printing, 39.52mm laminated glass with dots printing etc

PVB thickness: 0.76mm laminated glass, 1.14mm laminated glass, 1.52mm laminated glass, 1.9mm laminated glass etc

Max size: 3300x12000mm

Glass thickness: 4mm+4mm printed laminated glass, 5mm+5mm printed laminated glass, 6mm+6mm printed laminated glass, 8mm+8mm printed laminated glass, 10mm+10mm printed laminated glass, 12mm+12mm printed laminated glass etc

Glass color: clear laminated glass, extra clear laminated glass, green laminated glass, brown laminated glass, blue laminated glass, grey laminated glass, frosted laminated glass, ceramic printed laminated glass etc.

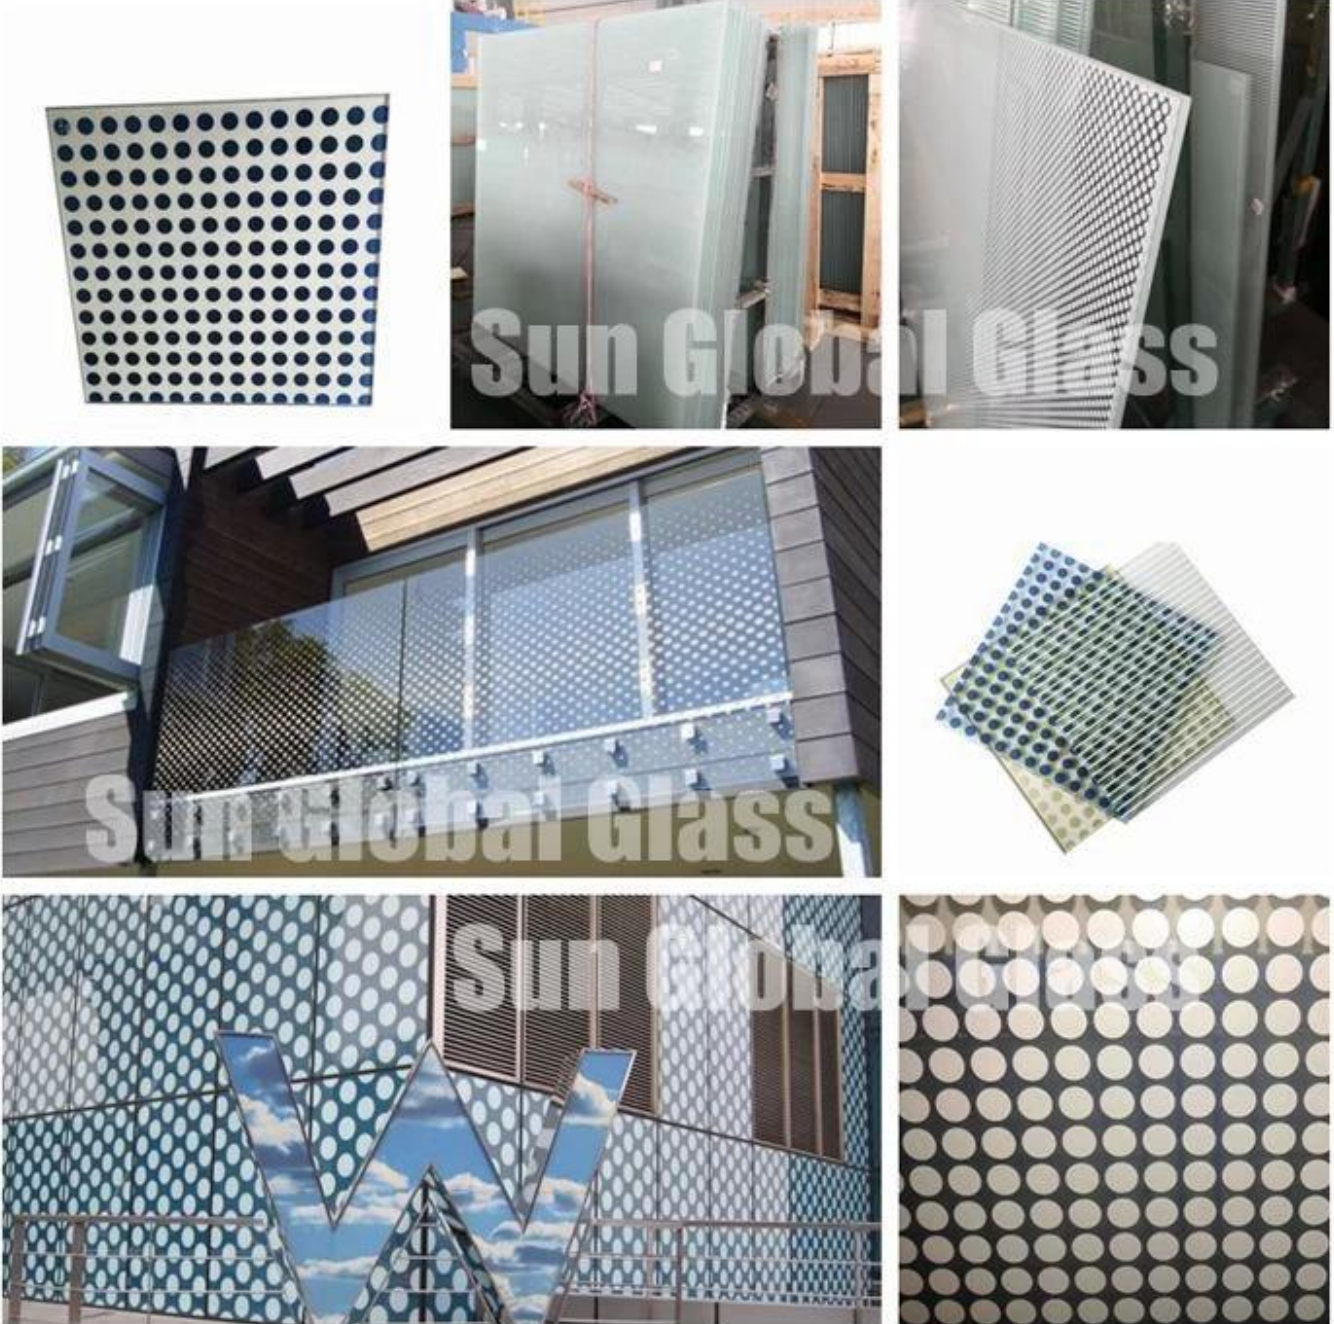

Applications:

9.52mm dots silk screen laminated glass have wide usage in modern construction, Mostly in following areas:

1. Glass railings, glass balustrade, glass fence etc.
2. Glass partition, glass partition wall, glass wall
3. Glass floor

4. Glass facade, glass curtain wall, glass exterior wall

Quality Certificates:

9.52mm laminated glass with 50% dots silk screen printing are produced strictly under ISO9001 Quality System and have passed following domestic and international quality standards:

1. 9.52mm laminated glass with 50% dots printing meet CCC(Chinese Safety Glass Compulsory

Certification)

2. 9.52mm laminated glass with 50% dots printing meet China laminated glass standard GB9962.

3. 9.52mm laminated glass with 50% dots printing meet meet European safety glass standard EN14449:2005.

4. 9.52mm laminated glass with 50% dots printing meet American safety glass standard SGCC ANSI Z97.
