

Electric Semi Cassette Awning

Compare open cassette awnings, the semi cassette still offers varying degrees of protection to the fabric although the arms do not retract into this type of cassette. Not having to work within the constraints of the closed cassette size semi cassette awnings can offer more in terms of extended arm sizes, gas strut supports, lighting and other add ons.

Functions

Elegant back cassette with square tube , front tube with back cassette as a whole , front cassette looks top-grade.

Screws made of stainless steel , aluminum frame can support bigger gravity , powder-coated cassette finish.

The awning can be adjusted within 50-400°.

When close, the whole awning is retracted into the cassette to avoid the fabric getting dirty.

Size

Length(m)	Projection								
	2.15	2.5	3.0	3.5	4.0	4.5	5.0	5.5	6.0
1.5	✓	✓	✓	✓	✓	✓	✓	✓	✓
2.0		✓	✓	✓	✓	✓	✓	✓	✓
2.5			✓	✓	✓	✓	✓	✓	✓
3.0					✓	✓	✓	✓	✓
3.5						✓	✓	✓	✓

Technics Characteristics

Chrome plated is the metal coating on the surface to change nature of the materials, improve its hardness, prevent wearing, resist heat to keep the surface elegant.

The back cassette can move up and down, it can adjust the height automatically when retracting. when it close, the front bar suit the back cassette exactly.

Close-in style adjuster for up and down, it change the traditional adjusting way of exposing the screws. makes adjusting more flexible and stable.

Special-shape arm increase its strength and intensity, arm is made of 304 stainless steel chain instead of steel wire, it become more durable.
