

Retractable Horizontal Drop Vertical Awning

A vertical drop awning for windows, porches and sliding glass doors etc. protects outdoor features from the sun with its elegant details, original colours and fine craftsmanship. The complete range of SZG vertical drop awnings offers a huge choice of technological components. When the awning is closed, a cassette houses the fabric. SZG vertical drop awnings are made of hard-wearing, strong and safe materials. And they are always in perfect working order. They can be easily installed even in special spaces or architectural contexts.

Optional Size

Technology

Automatic balancing system proprietary technology

Concealed Zipper technology

Anti-wrinkle patented technology

Specialized outdoor blind fabric with Grade 8 color fastness

Superb strong double layer top tube

Three layer heavy bottom bar, concealed welding technology

Benefits

STOP THE SUN FROM REACHING THE GLASS.

Vertical awning drastically reduce heat transfer onto the glass, keeping your home cool. This makes them perfect for south-facing windows.

MAXIMISE LIGHT AND VIEWS.

Curtains and blinds always take up some space in front of the window, even when they're opened wide or tied back. Vertical awnings are invisible from indoors when retracted, providing a neater appearance and an uninterrupted panorama.

EASY OPERATION.

Open and close multiple motorised window awnings simultaneously using the remote control.

MADE TO MEASURE DESIGN.

SZG can find a solution to cover wide, tall or bay windows. If there are a combination of window types in a single room it's still possible to have matching fabrics.

STURDY CONSTRUCTION.

Traditional blinds, particularly segmented Venetian and Roman styles, can be prone to damage. It's not uncommon to find broken slats after a relatively short period of time. Vertical awnings are designed for life outdoors, so they're a lot stronger. The aluminium enclosure and tough acrylic and polyester fabrics also resist sun bleaching effectively.

FUSS-FREE CLEANING.

Curtains require regular washing, and blinds can be a magnet for dust. Vertical awnings are available with self-cleaning fabrics, making them virtually maintenance-free.

MORE PRECISE SHADING.

Drop arm awnings allow you to angle the awning at a pitch, blocking the brightest rays while still letting in natural light.
